

# Charts for left and right toes

## Toe up socks

To use these charts starting from the toes, cast on 22 stitches (11 for top and 11 for bottom of toe). For a left foot, start knitting from the blue chart, where the blue side is the top of foot, and the green side is the bottom of foot. For the right foot, start knitting the green chart (still reading from right to left) and then continue to the blue chart.

If your socks have no particular pattern, you can knit both toes the same and just flip one over when you are ready to knit the foot.

If your sock pattern calls for more than 60 stitches to begin the foot section, then repeat rows 19 and 20 until you have the number of stitches you need.

## Top down socks

To knit these toes top down, instead of M1L use SSK and instead of M1R use K2Tog. If you have more than 60 stitches in the foot when you begin the toe section, repeat rows 19 and 20 until you have 60 stitches and then work per the pattern.

M1R	make 1 right leaning
M1L	make 1 left leaning
SSK	slip, slip, knit (1 stitch decrease)
K2Tog	knit 2 together (1 stitch decrease)
	no stitch
